

## The Course

The Woodlands Disc Golf Course begins on the west side of Gates Town Park just behind the playground. It starts off north then swings west into a wooded area where it winds around trees before leading back out in the open by the pond. This 9-Hole course was designed and built by Daniel Hooch with assistance from the Rochester Disc Golf Association volunteers and with financial support from the Friends of Gates Recreation & Parks group. Special thanks are given to the Gates Highway & Buildings and Grounds crews and Boy Scout Troop #94 for their assistance in constructing and maintaining this course.
